

Dear Several Sources Benefactors,

Back in August 2013, I went to the doctor for a physical and to my surprise, found out I was expecting. I would be lying if I told you that I was happy. I would also be lying if I said I wasn't thinking of abortion. I could not afford a child! If this was God's plan, why was it so hard? Certainly God does not want me to struggle. I never made an abortion appointment but there were many times I thought about it.

When in doubt, I knew who I could speak to - Kathy. The moment I contacted her, I knew my life would go in a better direction. She immediately quoted the Bible and told me, as I had already known, that abortion was wrong and not to take the life of my unborn child. Didn't my baby deserve a fighting chance to live? She said as a nurse, I knew better ... and I did. I knew through prayer that God would work this out but ... sometimes it takes seeing through someone else's eyes to understand that what I was possibly going to do was wrong!

At the time I was not working at the best job in the world and the pregnancy made me have to go on disability early. Before I was able to get disability, through the Several Sources benefactors' contributions, Kathy was able to give me food cards and other basic assistance that I needed to help keep my soon-to-be baby boy! I want to thank you from the bottom of my heart! Thank you and my baby, Preston thanks you too!

*God bless you,
Rachel and Preston (born 4-14-14)*
